With Atheros, I managed in 2 weeks to learn the basics of UX/UI Design again by working on a concrete project. Thanks to the course, I had enough confidence in myself to put all my knowledge into practice.

It then took me a month to manage to am still learning being there

Vincent  
@vincent

I think it is one of the best starting courses to approach the world of UX Design, Jan is clear and he managed to explain even complex concepts simply. I suggest this course to whoever beginner is interested in this world.

Andrea Vitto

Wonderful course, I see someone like Jan passionate about UX/UI design, structured and well

André Vital
